

# Melting Icebergs

Pour some salt on just one end of the ice cube.  
If you listen carefully you may hear a faint sound.  
What does it sound like?

.....

.....

Feel the end of the ice where you poured the salt.  
What does it feel like?

.....

.....

Feel the other end of the ice. Does that feel any different?

.....

Wait about 10 minutes.  
Feel the end of the ice where you poured the salt again.  
What does it feel like now?

.....

.....

Feel the other end of the ice. Does it feel the same as before?

.....

# Melting Icebergs

Weigh the two blocks of ice.  
Write the weights in the table below.

Pour some salt onto Iceberg 1.  
(Pour on enough to cover the surface of the ice block.)

Time experiment started

.....

Time	Weight of Iceberg 1 (with salt)	Weight of Iceberg 2 (no salt)
start		
15 minutes
