

Laughing Chicken

What you need

Large yogurt pot
String
Sharp scissors
Paper
Coloured pencils
Sticky tape

In this experiment we are going to make a sound in a rather unusual way. You will be amazed at the strange sounds you can make with just a yogurt pot and a piece of string. The Laughing Chicken is very easy to make - and it really does make a sound like a chicken!

How to make your Laughing Chicken

- 1** Ask an adult to use the sharp point of the scissors to make a small hole in the bottom of the yogurt pot.
- 2** Cut a short length of string (about 15-20 cm is fine). Thread one end of the string through the hole in the bottom of the yogurt pot and tie a knot in the end of the string (so the knot is on the inside of the yogurt pot). If you have difficulty getting the string through the hole, try wrapping a piece of sticky tape round the end of the string.
